Contact us today to schedule a consultation and start your tiling project with Newcastle Tilers. Let us help you enhance your space and bring your vision to life.

Types of Tiles

When it comes to choosing tiles for your space, there are several options to consider. At Newcastle Tilers, we offer a variety of tile types to suit different design preferences and practical needs. Here are some of the most popular types of tiles we provide:

1. **Ceramic Tiles:** Ceramic tiles are a versatile option that comes in a wide range of colours, patterns, and sizes. They are durable, easy to clean, and suitable for both indoor and outdoor areas.
2. **Porcelain Tiles:** Porcelain tiles are known for their strength and durability, making them a great choice for high-traffic areas like kitchens and bathrooms. They are resistant to water, stains, and scratches, making them a practical option for any space.

3. Natural Stone Tiles: Natural stone tiles, such as marble, granite, and travertine, add a touch of luxury and elegance to any space. They come in various colours and textures, making them a versatile choice for both traditional and contemporary designs.

4. Glass Tiles: Glass tiles are a popular choice for adding a splash of colour and shine to kitchen backsplashes and bathroom walls. They are easy to clean, resistant to water and stains, and can create a modern and sleek look in any space.

Tile Installation and Removal

We take pride in our professional tile installation and removal services at Newcastle Tilers. Our team of experienced tilers is dedicated to delivering high-quality workmanship and exceptional customer service on every project. Whether you are renovating your home or building a new space, our experts can handle all your tiling needs with precision and care.

When it comes to tile installation, our process begins with a consultation to discuss your design preferences and budget. We will help you choose the right tiles for your space and provide a detailed quote for the project. Our tilers will then carefully prepare the surface, install the tiles with precision, and grout the joints to ensure a seamless finish.

If you need to remove old tiles before installing new ones, our team can handle the job efficiently and safely. We use specialised tools and techniques to remove tiles without damaging the underlying surface, ensuring a smooth and clean base for the new tiles. Our quick, thorough, and cost-effective tile removal services allow you to start your tiling project with minimal disruption.
